

CMA SUMMER PROGRAM. SERVE. RESET. REFOCUS

A SUMMER TO RESET

After a year of stress and uncertainty, give your teen the chance to become who they were created to be as they serve alongside their peers, and are mentored by trained counselors and youth coaches.

EXPERIENCES INCLUDE:

At the CMA Summer Program, your child will experience some (or all) of the following.

- Building Projects — Help local families, communities, churches, and schools.
- Sports Clinics — Partner with organizations to lead youth sports clinics in low-income areas.
- Community engagement — connect with local neighbors on service projects.
- Hiking/Camping — Join your peers on a 3-5 day hike to Pico Duarte.
- Waterfalls and rivers — live and play in beautiful water features close to campus.
- Beaches — Monthly trips to beautiful caribbean beaches.

BENEFITS OF CMA'S SUMMER PROGRAM

Give yourself peace of mind knowing that your child is growing and being challenged positively as an individual, while also enjoying the summer of a lifetime.

Education Beyond Academics

Students have access to CMA's accredited school during their time at the CMA Summer Program, but they'll also be learning valuable life skills outside of the classroom like leadership, teamwork and integrity.

Coaching & Counseling

CMA's summer adventure program can provide the therapeutic support your teen needs in order to break self-defeating patterns and experience healing.

CMA SUMMER PROGRAM SNAPSHOT
